Introduction

I am Passionate Mobile & Web Developer with experience in React and React Native. Recent graduate skilled in building responsive applications, UI design, and API integration. Dedicated to high-quality solutions and staying current with technology trends.

TECHNICAL SKILLS:

- React JS
- React Native
- Tailwind CSS
- CSS
- .NET Framework
- Firebase (Learning)
- ASP.NET MVC Web Application
- Windows Form App
- SQL
- JavaScript
- Git
- RESTful APIs
- HTML
- C#
- Google Maps API
- Figma
- Canva

SOFT SKILLS:

- Problem Solving
- Communication
- Time Management
- Adaptability
- Teamwork
- Attention to Detail
- Creativity
- Self-Motivated

PROFESSIONAL EXPERIENCE

Freelancing

Front-End Developer

Remote
November 2023 – Present

Karigar

Karigar is a versatile cross-platform mobile application connecting users with local sellers and service providers, such as plumbers and mechanics etc. Users can browse and purchase products or services, while sellers and service providers can list their offerings, manage their business details, and handle online payments. I contributed to the project's success by developing the frontend.

- **Front-End Development:** Translated Figma designs into React Native code, accelerating development by 20%.
- **API Integration:** Seamlessly connected the front-end with RESTful APIs, ensuring smooth data flow and robust functionality.

- **Cross-Platform Consistency:** Delivered a consistent and optimized user experience across both Android and iOS by carefully adapting and testing the UI on multiple devices.

Bitcoin Mining (Crypto Miner)

Bitcoin Mining (Crypto Miner) was originally developed as a cross-platform mobile application. On the client's request, who was a PhD student working on his final year project, I duplicated the user interface for both Android and iOS to meet his specific requirements.

- **Front-End Development:** Achieved 95% design accuracy in replicating the original app's interface for both platforms.
- **Cross-Platform Consistency:** Delivered a consistent user experience on both Android and iOS by thoroughly adapting and testing the UI across devices.

Mega Base Lotto

Mega Base Lotto is a modern lottery website built with React.js and Tailwind CSS. It offers users an engaging and user-friendly platform to participate in exciting lottery games, with a sleek and responsive design that ensures a seamless experience across all devices.

- **Responsive Design:** Developed a sleek, user-friendly interface that ensures seamless interaction across all devices using React.js and Tailwind CSS.
- **Engaging User Experience:** Created an engaging platform that enhances user participation and enjoyment in lottery games.
- **Front-End Development:** Built a modern, efficient front-end with React.js and Tailwind CSS for optimal performance and maintainability.

Full Stack Developer

November 2023 – Present

Sharar Parts

Sharar Parts is an e-commerce cross-platform mobile application that allows users to effortlessly purchase car parts with just a click of a button. This app is currently under development, leverages Firebase for backend services and is being meticulously designed and developed to ensure a seamless user experience across all platforms.

- **Front-End Development:** Designed and developed the user interface by converting Figma designs to React Native code, achieving a 40% increase in interface responsiveness.
- **Firebase Integration:** Implementing Firebase for efficient data management, user authentication, and real-time updates.
- **Cross-Platform Consistency:** Ensuring seamless user experience across Android and iOS by meticulously adapting and testing the UI on both platforms.

Final Year Project (FYP)

Full Stack Developer

Rawalpindi / Pakistan

July 2023 – June 2024

Bus Pass with QR Scan

Bus Pass with QR Scan is a cross-platform mobile application designed to improve student transportation by offering QR pass validation, online bus schedules, and enabling parents to monitor their children's location in real time. QR-based validation eliminates the need for manual pass handling and improves coordination among students, parents, conductors, and administrators.

- **Front-End Development:** Designed and developed the user interface by converting Figma designs to React Native code, achieving a 40% increase in interface responsiveness.
- **Feature Integration:** Implemented QR-based digital bus passes and real-time tracking with Google Maps API, enhancing tracking accuracy by 50%.
- **API Development:** Developed and integrated RESTful APIs, ensuring seamless data communication and improving data retrieval times by 30%.
- **Database Management:** Designed ERD using Canva and converted it to a functional database in SSMS, optimizing data storage and retrieval efficiency by 25%.

EDUCATION

Pir Mehr Ali Shah Arid Agriculture University - PMAS AAUR

Bachelor of Computer Science

Rawalpindi / Pakistan

June 2024

Govt Graduate College Asghar Mall Rawalpindi

Intermediate in Computer Science

Rawalpindi / Pakistan

March 2020

CERTIFICATION

Frontend Developer (React) Certificate

Awarded By: Hacker rank

LEADERSHIP EXPERIENCE

WORK

Team Lead Tier-1

Rawalpindi / Pakistan

June 2021 – June 2023

As a Team Lead for a Tier-1 support team, I was responsible for leading and managing daily operations, ensuring efficient workflow and high client satisfaction. My role included training team members, resolving technical issues, and continuously improving team performance.

- **Leadership and Training:** Spearheaded the training of team members in customer handling and technical support, ensuring a well-prepared team capable of addressing client needs effectively.
- **Team Management:** Led a team of 25 members, optimizing workflow and increasing client satisfaction by 20% through effective issue resolution and process improvements.
- **Problem Solving:** Provided hands-on guidance in resolving technical and operational challenges, reducing the average issue resolution time by 15%, thereby enhancing overall team efficiency.

FYP

Group Leader

Rawalpindi / Pakistan

July 2023 – June 2024

As the leader of my Final Year Project (FYP) group, I took on the responsibility of guiding my team of four members through the project. I assigned tasks, provided support to ensure the successful completion of each member's responsibilities, and helped drive the project to completion.

- **Team Leadership:** Led a team of 4 members, assigning tasks based on individual strengths and ensuring that all project milestones were met on time.
- **Task Management:** Provided hands-on assistance to group members, helping them overcome challenges and achieve their assigned tasks efficiently.

- **Project Coordination:** Ensured seamless collaboration within the team, fostering a productive environment that led to the successful completion of our FYP.
